# JUMORE Overview

## Mission, Vision & Values

JUMORE is a leading global supply chain digital platform.

Our digital ecosystem provides a global marketplace where goods and services are transacted on a B2B basis.

## Customer Database

- 1+ million corporate users
- A global database of 50 million enterprises

## Global Network

- 150+ countries and regions
- All Chinese provinces, municipalities and autonomous regions

## Complete Coverage of Industry Chains

JUMORE offers a complete coverage of all industry chains, from minerals, energy and agricultural products to semi-finished products, down to finished industrial and consumer goods. Users of the platform have access to a whole range of upstream and downstream partners from all over the world.

## Full Spectrum of Supply Chain Services

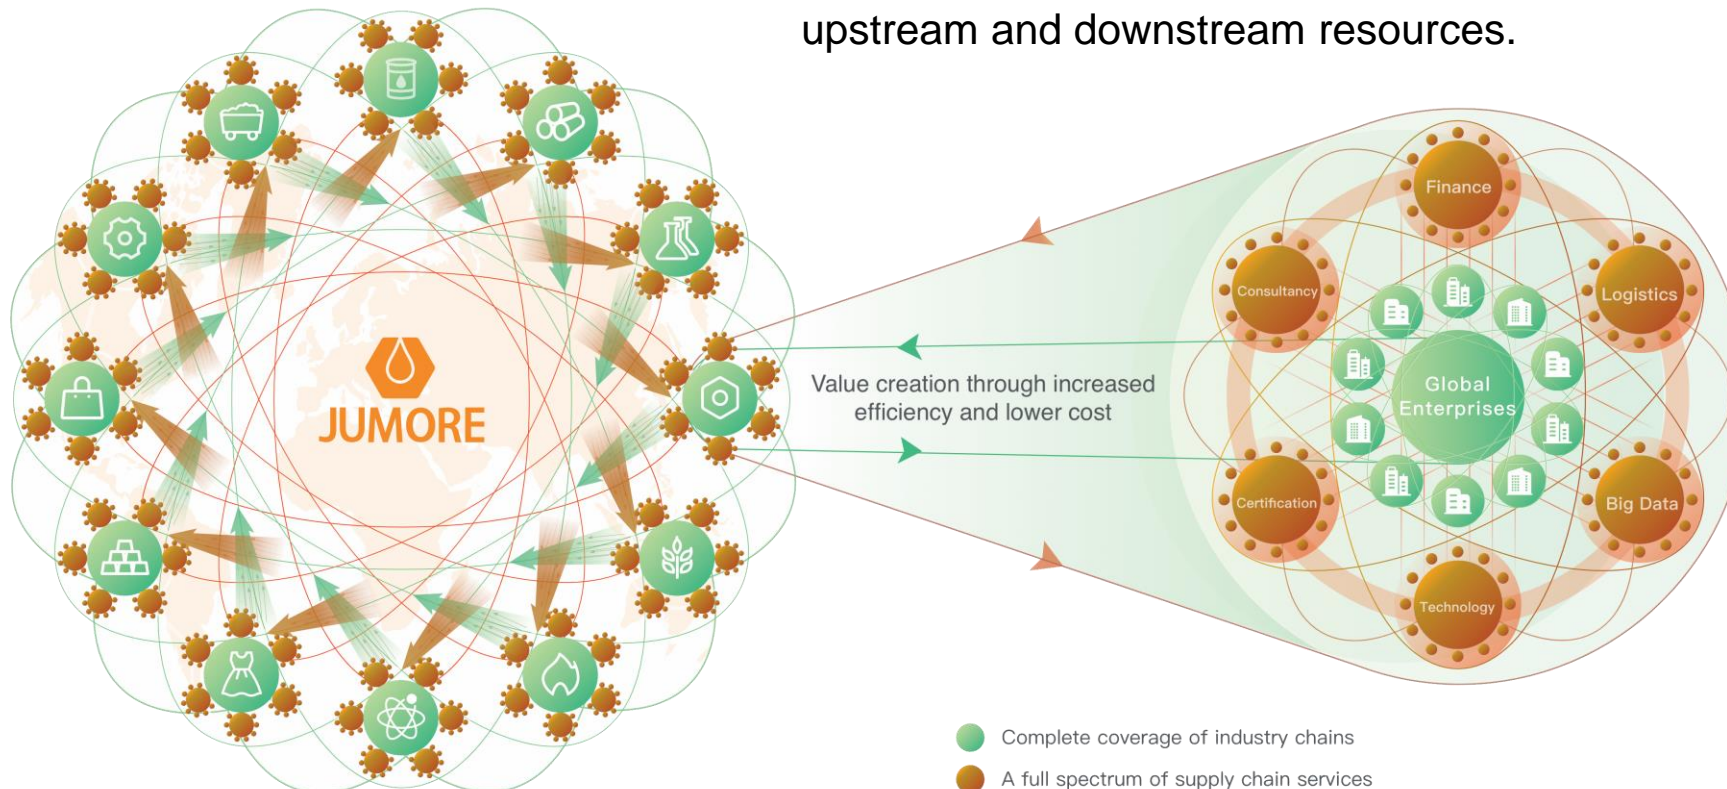

JUMORE's network effect and unique knowledge in global trade shape powerful win-win partnerships between our users and solution providers. JUMORE takes active measures to integrate global resources, and provides enterprises in the supply chain with a full spectrum of services.

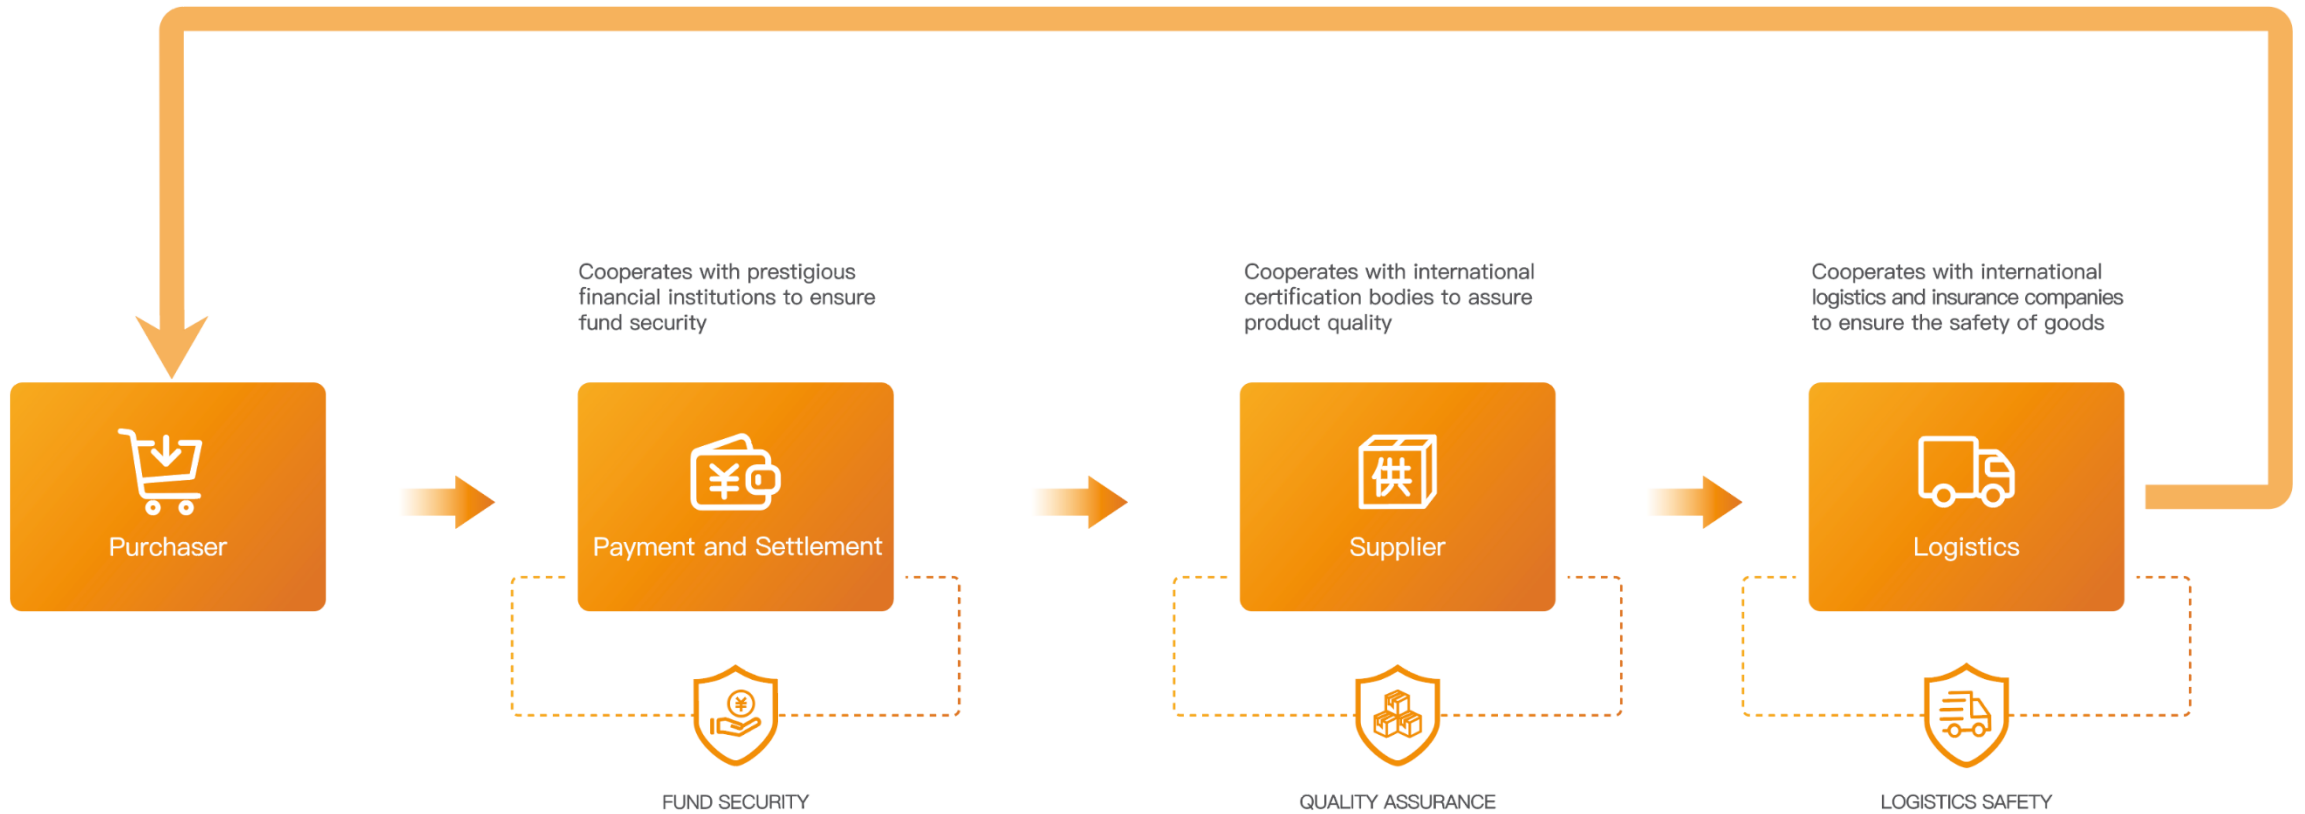

## Global Digital Ecosystem

JUMORE facilitates the digital transformation of international trade, manufacturing and services. It offers the underlying digital architecture which enables regions, industry clusters and enterprises to construct their ecosystems connecting upstream and downstream resources.
